

To the Global Fund Board

We share with you the concerns of a large number of civil society organizations worldwide around the cancellation of Round 11 and the funding crisis within the Global Fund, and call upon the Global Fund Board to take immediate action to keep us on track to meet commitments made by all at the various UN High-Level Meetings and MDG summits:

## **CALL TO ACTION**

### **- US\$2 billion for the Global Fund in 200 days -**

The cancellation by the Global Fund to Fight AIDS, TB and Malaria of all new programming until 2014 is unacceptable. This decision will cost lives and cripple international efforts to deliver on health-related goals, breaking promises made to some of the world's most vulnerable people, and punishing the Global Fund's success of the last ten years.

People living with HIV and their supporters, as well as communities affected by TB or malaria, are extremely concerned about the damage under-funding of the Global Fund is causing. We therefore demand that:

- **The Global Fund Board and Secretariat mobilise the resources necessary to scale-up the response to the three diseases through a new funding opportunity for 2012, estimated at US\$2 billion.<sup>1</sup>**
- **Donors to the Global Fund – particularly governments – urgently deliver on the commitments they made to meet health goals<sup>2</sup> and to fund the Global Fund at its Replenishment Meeting in 2010.<sup>3</sup>**
- **The Global Fund hold an emergency donor conference and issue a new call for proposals before the International AIDS Conference in July 2012 to fully fund the scale-up of programmes that will fundamentally change the course of these three epidemics, and put the world on the path towards ending AIDS.**

Donors and others now have 200 days, starting from 1 January, to save the Global Fund.

---

<sup>1</sup> See "Resource Scenarios 2011-2013", p 15. Scenario 2 estimates the cost of a new Round in 2011 to be US\$2.7 billion. An estimated US\$0.6 billion is available in uncommitted assets for continuation of essential programs, which would be assumed to be included in funding requests through new proposals. US\$1.1 billion of the funding required could be raised if all 2010 donor pledges to the Global Fund were met.

<sup>2</sup> Including the UN health MDGs (<http://www.un.org/millenniumgoals/>) and the UN High Level Meeting on HIV/AIDS (<http://www.un.org/en/ga/aidsmeeting2011/>)

<sup>3</sup> The US contribution partially falls outside the replenishment and is under threat by Congress; Belgium, Denmark, EC and the Netherlands have not contributed their 2010 pledges and Denmark has since announced a pledge reduction; Spain, Italy, and Ireland did not pledge and have outstanding payments from previous years. For 2010 pledges, see [http://www.theglobalfund.org/en/mediacenter/pressreleases/Donors\\_commit\\_US\\$11\\_7\\_billion\\_to\\_the\\_Global\\_Fund\\_for\\_next\\_three\\_years/](http://www.theglobalfund.org/en/mediacenter/pressreleases/Donors_commit_US$11_7_billion_to_the_Global_Fund_for_next_three_years/) for pledges and [http://www.theglobalfund.org/documents/core/financial/Core\\_PledgesContributions\\_List\\_en/](http://www.theglobalfund.org/documents/core/financial/Core_PledgesContributions_List_en/)

We cannot wait until 2014 for the Global Fund to support further scale-up of programmes and life-saving treatment. We urgently call on the Global Fund to meet the timeline above and for donors and affected countries to ensure that interventions with the highest impact on the three epidemics are supported.

The clock is ticking. Millions of lives are at stake.
