

At AIDS 2018, Global Fund advocates are demanding immediate action to get back on track to end the HIV/AIDS, TB and Malaria epidemics.

The **Global Fund** will need to raise between **US\$16.8 billion** and **US\$18 billion** at the **6th Replenishment** in **2019** to meet its share of the **US\$46 billion** needed annually to end the epidemics.

Get Back on Track
