

Sixth Replenishment Investment Case

January 2019

Calculations show that every US\$100 million invested in Global Fund-supported programs will:

- Save 114,000 lives through programs supported by the Global Fund, and;
- Avert 1.7 million new infections or cases across the three diseases, and;
- Spur domestic investment of US\$300 million toward the three diseases, and;
- Create US\$1.8 billion in economic returns through health gains, and;
- Provide antiretroviral therapy for 190,000 people, and;
- Provide medicine for 20,000 mothers to prevent transmitting HIV to their babies, and;
- Provide TB treatment and care for 133,000 people, and;
- Provide 6,900 people with treatment for multidrug-resistant TB, and;
- Distribute 5.3 million mosquito nets to protect children and families from malaria, and;
- Provide indoor residual spraying for 565,000 households to protect children and families from malaria.
