

the change we want to see

gfan envisions a world in which all people can access quality health care & services to prevent & treat HIV, tuberculosis & malaria, & can exercise their human rights including the right to health.

gfan's intended results

funding for health & rights will be sustained & increased, & will be equitably & effectively allocated, including:

- Global investments, including funding from high-income countries through the Global Fund to fight epidemics of HIV, tuberculosis & malaria.
- Domestic investments, including funding for community-based & community-led programming & universal health coverage for all.

effective policies & programs will be developed & implemented at scale, including:

- Health policies & programs that leave no one behind in the prevention & treatment of HIV, tuberculosis & malaria & attainment of all SDG3 goals for health.
- Policies & programs to advance all SDGs including global goals related to human rights & gender equality.

outcomes of gfan's work

advocacy will be

- Informed by evidence, analysis & strategies to improve funding, policies & programs
- Visible & vocal to inform & influence governments & public opinion
- Sustained to build sufficient awareness, support & influence for success

global advocacy moments will be
