GFAN
Report to Membership
2021
NEW IN 2021

2021 saw a lot of challenges and changes for GFAN here is a snapshot....
We released our new strategy early in early 2021.

**mission**
To unite advocates worldwide for fully funded and effective efforts against epidemics of HIV, tuberculosis and malaria and for attainment of health, human rights, and sustainable development.

**vision**
GFAN envisions a world in which all people can access quality health care and services to prevent and treat HIV, tuberculosis and malaria, and can exercise their human rights including the right to health.

**values**
As a global network of advocates and advocacy organizations, GFAN includes diverse advocacy perspectives, promotion of gender equality and human rights, open communication and debate, mutual learning, development of aligned priorities for global advocacy, and assertive communications and action for a better world.

**gfAN operates with the beliefs that**
- The world can and must invest in control of HIV, tuberculosis, malaria, and other preventable epidemics.
- Global collaboration and coordination in advocacy can succeed in securing funding and effective policies and programs for health and other SDGs.
- Communities, and especially people directly affected by epidemics, are at the center of innovative and effective advocacy and epidemic responses.
- Funding and programming against epidemics must be informed by evidence, including scientific evidence and community-generated evidence, to confront and reject stereotypes, stigma, discrimination and unjust criminalization and push for equity and justice.
- Long-term attainment of global health, human rights, and sustainable development require a shift in resources and power toward new paradigms of domestic financing and global public investments.
strategy

THE FULL strategy IS AVAILABLE ON OUR WEBSITE!
The new Speakers Bureau was launched in March 2021. Speakers are available to help support your advocacy work for the Global Fund and can speak from personal experience how the work of the Global Fund saves lives.

“I am just one voice in millions that has benefited from the Global Fund work, but that is one voice I am proud to add in advocacy for an organization that is doing so much amazing work in my country and throughout the world.”

Click on the Speaker’s picture to learn more about their story.

GFAN underwent a process to find a new host in 2020 and in early 2021. With the assistance of an advisory group made up from our membership a new host was selected – the Joep Lange Institute (JLI). The GFAN Secretariat has been working with JLI over the past year to ensure a smooth transition and adjusting to our new home at JLI.

We believe this partnership with JLI will reinforce GFAN’s efforts in ensuring that the voices of Communities and Civil Society are heard, acted upon, and strengthened.

YOU CAN FIND a full report on OUR WEBSITE!
In June we welcomed a new staff member to the GFAN Secretariat, and some responsibilities shifted amongst the staff team.

Quentin joined the team as our new Communications and Advocacy Officer after recently completing his PHD in Political Science. He is currently based in Fiji.
Katy KYDD WRIGHT
Katy was made Director of GFAN and led the team through the transition out of ICSS, with our temporary host, and into our new hosting arrangement with JLI. She has been a part of the GFAN team since 2012 and is based in Ottawa, Canada.

Tara HOGETERP
Tara is now the Operations Manager at GFAN after turning over the communications reigns to Quentin. She too is based in Ottawa, Canada and has been with GFAN since 2018.

Sive STOFILE
Sive is the Grant Manager at GFAN and supports the team on all aspects of Monitoring, Learning and Evaluation within the Secretariat. She too joined GFAN in 2018 and is based in South Africa.
In September the new GFAN International Steering Committee was selected and the committee met for the first time in October.

Members were chosen by a selection committee from applications submitted between June and September 2021.

The 11 member committee will operate in an advisory role to the GFAN Secretariat.
In November we launched our ask document for the Global Fund’s 7th Replenishment.

**Fully Fund the Global Fund: Get Back on Track to End AIDS, TB and Malaria in a Covid World**

Our demand is clear:

**We need bold & decisive action.**

**Now is the time for significant investment in the Global Fund to fight AIDS, Tuberculosis and Malaria, an existing funding mechanism with a proven track record & credibility.**
To close the gaps & get back on track, the Global Fund will need at least $28.5 billion.

Watch the REPORT LAUNCH

**Launch of the GFAN Civil Society Ask on Nov 23 2021**

The ask: Strengthening Community-Led Responses

During the recent strategy conversations, many community and civil society representatives urged the Global Fund to specifically dedicate more resources to community-led and based initiatives.

Within the Global Fund's RSH portfolio, community-led initiatives receive far less funding than health systems.

This is not a request or position for a separate modality within the Global Fund. It is a statement that investing in community-led and community-based initiatives is critical and requires new and significant funding.

Positioning the GFAN ask among uncertainty and unknown factors: a statement on the value and need to invest significant new funds in strengthening community-led and community-based initiatives.
Individual members: **765**
Number of organizations: **417**
Number of countries represented: **89**
Number of GFAN calls: **19**
% of members who find GFAN calls extremely or very useful: **85**
Joint Statements & Sign-Ons: **18**
**On Twitter** - 497 tweets for an audience of 3,600
**On Facebook** - 273 posts for an audience of 1,600
**On our website** - 54 pages & blog posts created, and over 12,000 visitors
% of members who used our website: **98**
Most useful GFAN activities:
- GFAN campaigns
- GFAN calls
- GFAN research reports
- GFAN reports from Global Fund meetings

Most useful GFAN calls:
- strategy and collaboration ahead of key events or milestones
- updates from Global Fund meetings and processes
- on the Global Fund’s Strategy Development
- with Global Fund leadership present

How you used GFAN:
- GFAN key messages in some or all of your communications around the Global Fund and/or ATM advocacy
- engaging regularly with Global Fund Secretariat on various policy issues
- regularly sharing GFAN social media
The impact of #COVID19 on @GlobalFund programs against the three diseases in a nutshell, from the 2021 #ResultsReport. We need to continue fighting back❤️❤️ #7thReplenishment #HIV #TB #Malaria
some of the calls we had this year...

- Global Fund strategy development and preparing for the Partnership Forums
- Debriefings from Global Fund Board meetings
- A new series of Thought Leaders Debates & World Café
- World Days communications plans
- Launching of the GFAN Strategy & the GFAN Speakers Bureau

FIND ONLINE THE Call Recordings
GFAN worked to get funding for civil society and communities efforts around COVID-19. GFAN increased the work to support C/CSO reps in 2021 as ACT-A prepares to work through all of 2022. GFAN will build on past work to support and provide a platform to C/CSO reps in GHIs.

GFAN works to bring civil society representatives together.

It has an observer status at the Global Fund Board meetings and is a member of the Developed Country NGO Delegation. GFAN issued reports following both the 45th and 46th Board Meetings.

GFAN's director is also a member of the developed country NGO delegation to the StopTB Board.
A LOOK AHEAD AT 2022

2022 Key Dates & Events

To Be Scheduled:
Kigali Summit on Malaria and NTDs
GFAN Global Meeting

Legend:
- GFAN Meeting
- Global Fund Meeting
- World Day

A revamped webpage so that you can better navigate our resources!
Some of the key activities we will be participating in in 2022:

- AIDS 2022 happening in Montreal, Canada
- Global Fund Preparatory Meeting & launch of the investment case
- Global Fund Replenishment
- Expanding collaborations with our regional partners, GFAN Africa & GFAN Asia-Pacific to ensure a aligned, inclusive and diverse advocacy towards to unite advocates worldwide for fully funded & effective efforts against the 3 epidemics
- GFAN will continue to share social media tools throughout the year and support your initiatives!
- Keep an eye out for our monthly round-ups, new blog posts.

To accompany the Ask document that we shared with you in 2021, we will have additional supporting materials including:

- A video featuring members of the GFAN Speakers Bureau
- Replenishment campaign materials for advocates to use including briefs, social media assets and other materials to help you in your advocacy for a fully funded Global Fund

With a Replenishment year, you can expect from GFAN campaign and advocacy activities that will help with your efforts to encourage countries and other contributors to fully fund the Global Fund and the fight against AIDS, TB and Malaria.
As we enter the third year of a global pandemic, many (including us here at GFAN) are feeling virtual fatigue and missing the face to face interactions we took for granted in previous years.

GFAN is committed to looking for innovative ways to engage decision-makers in virtual and hybrid formats. We are hoping that this year we might see at least some of our GFAN family in person - and we look forward to the next time we will meet - in person or otherwise.
